Summary

Full-Stack Developer and 3rd-year BTech student specializing in the React and Node.js ecosystem. Creator of 2 live Shopify apps currently in production and used by real merchants. Passionate about building scalable web applications and AI integrations. Actively seeking a remote Software Engineering internship.

Skills

- 🔗 Frontend: HTML, CSS, JavaScript, React.js, Next.js, RemixJS, Tailwind CSS
- 🔗 Backend & DB: Node.js, Express.js, MongoDB, PostgreSQL, Prisma, Supabase
- 🔗 E-commerce: Shopify App Development, Liquid, Shopify REST/GraphQL APIs
- 🔗 Tools & Other: Git/GitHub, Canva, SEO, Prompt Engineering

Experience

- Funcircle** Remote
Software Engineering Intern Aug 2025 - Dec 2025
- Architected and deployed a full-stack event ticket booking platform using Next.js, React, and Node.js, successfully processing real user bookings.
 - Engineered the database schema using PostgreSQL to manage user authentication, concurrent ticket inventory, and real-time event availability.
 - Integrated secure payment gateway (Razorpay) to handle live transactions seamlessly and automated ticket generation via email.
 - Optimized frontend performance and SEO, resulting in a fast, responsive user interface that scaled during peak traffic events.

Projects

- AI CrossSell, Related & Upsell – Production Shopify App** Oct 2025 – Present
- Architected and deployed a full-stack Shopify application currently live on the Shopify App Store, actively serving 50+ merchants.
 - Engineered the frontend dashboard using RemixJS and built a robust Express backend to handle Shopify webhooks and API rate limits.
 - Integrated Shopify GraphQL/REST APIs and managed secure OAuth authentication flows, storing merchant data in PostgreSQL + Prisma.
- Pairly - Bundles and Upsell** Jan 2026 - Present
- Architected and launched a production-grade Shopify Bundles app, enabling merchants to create custom product bundles and tier-based discounts.
 - Developed a dynamic merchant-facing dashboard using RemixJS and built an Express backend to process complex pricing rules and bundling logic.
 - Integrated specialized Shopify GraphQL APIs (Product, Cart, and Inventory) to execute real-time cart mutations, sync inventory, and ensure seamless checkout experiences without performance degradation.
 - Stored and managed relational product data and merchant configurations securely using PostgreSQL + Prisma
